

Coding Conventions

由 Markus Geiss 创建, 最后修改于一月 07, 2016

[Google Java Style](#) covers filenames, file organization, indentation, comments, declarations, statements, white space, naming conventions, and programming practices. All code written for Apache Fineract should follow these conventions except as noted below.

3.1 License or copyright information, if present

According to [ASF policy](#), the license header should be:

ALv2 License Header

Licensed to the Apache Software Foundation (ASF) under one or more contributor license agreements. See the NOTICE file distributed with this work for additional information regarding copyright ownership. The ASF licenses this file to you under the Apache License, Version 2.0 (the "License"); you may not use this file except in compliance with the License. You may obtain a copy of the License at

<http://www.apache.org/licenses/LICENSE-2.0>

Unless required by applicable law or agreed to in writing, software distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. See the License for the specific language governing permissions and limitations under the License.

4.4 Column Limit

We've chosen to use a column limit of 100 characters.
